

FAQs status

- **WS2 highlighted the need for improving the communication regarding the satellite broadband solutions**
 - Decision to elaborate FAQs for the Citizen and for the public authorities
- **Status**
 - Draft version delivered in May
 - Discussed at SABER WS#3 (Torino)
 - Iterated throughout summer up to end september
 - Latest version distributed last week to SABER partners.
- **Finalization schedule:**
 - Need to be edited in time for ESOA Broadband for All event on October 17th
 - First official SABER FAQs will be agreed in dedicated Working Group of SABER WS#4

FAQs: Topics particularly subject to discussion

- **Specific to Citizen FAQ**

- Title: Consumer vs Citizen → Majority for Consumer
- Subscription prices: range or average? → Majority for average.

- **Specific to Public Authority FAQ**

- Address Open Access or not? → no majority position but some insisted on the importance to clarify this for the PAs. Wording has been simplified.

- **New suggestions implemented**

- data confidentiality
- possibility to share antenna
- risk of interference and potential danger for Health
