SABER

The Digitale Agder Satellite broadband

- *The Digitale Agder comprise 30 municipalities in two counties in the south of Norway - About 280 000 residents*
- *At the moment 60 – 70 households and companies are using satellite broadband*
- *About 600 households and companies will lose their DSL- subscription- Too little payback*
- *Many can get mobile broadband*
- *Some projects try to get fibre to the homes*
- *For many, the best offer will be satellite broadband*

The Digitale Agder Pilote project

- *MAKE HOUSHOLDS AND COMPANIES AWARE OF THE
POSSIBILITIES OF SATELLITE BROADBAND AND
ARRANGE A DELIVERY PROGRAM*
- *Conduct a survey of those who are using satellite
broadband*
 - *Many are satisfied with the services they have*
 - *The survey may convince potential new users*
- *Use the results of the survey together with the FAQ s
and other facts from SABER to inform about the
possibilities*

The Digitale Agder Pilote project

- *Information letter to all municipalities*
- *Information letter to all households and companies who are losing DSL*
- *Providing procurement arrangement*
 - *Helping municipal administration*
 - *Achieving good prices*
- *Establish simple financial support*
- *Monitoring and evaluation*
