

SES

your satellite company

10 years+ Experience in Internet connectivity via satellite

SES Broadband Services is based in Betzdorf, Luxembourg and is a 100% owned affiliate of SES, a world-leading global satellite operator. SES owns and operates a fleet of 52 geostationary satellites complemented by a network of teleports and offices around the globe, enabling SES customers to reach 99% of the world's population. SES is listed on Euronext Paris and on the Luxembourg Stock Exchange (SESG).

Working in partnership with local service providers, SBBS network complements terrestrial broadband networks in rural areas to provide households, businesses, industry and institutional bodies, as well as whole communities, with high-speed, reliable broadband internet access. Our network is currently offered in Europe, the Middle East and Africa.
