30 September 2014 (Brussels): SABER Final Conference – “Broadband for European Regions, from availability to penetration: the satellite contribution”

30 septembre 2014

SABER (SATellite Broadband for European Regions) is a CIP-PSP co-funded project aimed to explore the possibilities of satellite broadband technology to effectively tackle digital divide in Europe, in line with the objectives of the Digital Agenda for Europe. SABER is now organizing its final conference.

The morning will be split in two panels held by representatives of Regions, EU Parliament, EU Commission, ESA, Satellite Operators, Satellite constructors and moderated by Roya Ayazi

(Secretary General of NEREUS). The afternoon will be dedicated to presenting the work done by SABER network during these two years and will allow full interaction with the audience.
